

REMARKS

Claim 1-24 are currently pending in the application, as amended. Applicants have amended the specification to address the Examiner's objections thereto. Applicants also amended claims 4, 5, 7, 9 and 19 to address the Examiner's objections thereto. Claim 2 has been amended to delete "rotatably" from line 2 for clarity purposes. The dependency of claims 23 and 24 has changed to claims 14 and 19, respectively. Accordingly, no new matter has been added.

Specification Objections

The Examiner objected to the specification because of the following informalities: on page 10, line 11, wherein "36" should have been "36a"; on page 19, line 4, wherein "82" should have been "282"; and on page 19, line 4, wherein "285" should have been "285a". It should be noted that the Examiner recommended changing "285" to --285a-- at page 19, line 4. However, there is no "285" at page 19, line 4. The Examiner probably meant page 19, line 9. At page 19, line 9, Applicants changed "285" to --285a--. At page 20, line 1, Applicants also changed "285" to --285a--. The remaining noted corrections have been made. Applicants respectfully request reconsideration of the objection to the specification and the withdrawal of the objection.

Claim Objections

The Examiner objected to claims 4, 5, 7, 9 and 19 because of the following informalities. In claim 5, line 3, "direction" was inserted after "third". In claim 5, line 2, "(D1-D3)" was deleted. In claim 7, line 4, "(85)" was deleted. In claims 4 and 9, line 3, "rotating body" was changed to "bearing member". In claim 19, line 6, "a", second occurrence, was changed to "said". Appropriate corrections have been made. Applicants respectfully requests reconsideration and withdrawal of the objections to claims 4, 5, 7, 9 and 19.

Conclusion

In view of the above-noted amendments and remarks, it is respectfully submitted that the present application, including claims 1-24, is in condition for allowance and such action is earnestly solicited.

Respectfully submitted,

ARIHIRO TSUNODA *et al.*
